## Brief

### The sublime in Tactical concept ICS-SG-551/552 MRS BK/DE

ICS SG-551/552 series are all along popular as being high grade models for players. At the moment, ICS generate new concept of modular rail system integrate ICS SG series as progressive Rifle!

ICS-151 SG-551 MRS BK

ICS-152 SG-552 MRS BK

ICS-153 SG-551 MRS DE

ICS-154 SG-552 MRS DE

- ◆ICS-151 SG-551 MRS BK Tactical Rifle with Black color
- ◆ICS-152 SG-552 MRS BK Tactical Assault Rifle with Black color
- ◆ICS-153 SG-551 MRS DE Tactical Rifle with Dark Earth color
- ◆ICS-154 SG-552 MRS DE Tactical Assault Rifle with Dark Earth color

All-round of Tactical facilities、accurate shooting particularly、Ergonomics advanced in target of development for SG MRS series ! Furthermore, Low-visibility paint has been manipulated with real gun products. ICS make the innovation on SG-551 MRS DE simultaneously for more options.

## Product Features 1.

All-round of tactical facilities fit / MRS Tactical Rail system (modular rail system)

ICS develop the new Handguard set of SG-MRS Tactical series! It includes four sides of Rail and conforms to M-1913 Picatinny standard with swift dismantled system which is compatible with all of facilities fit. In addition to support variety facilities, SG-MRS Tactical Handguard lead to swift assemble design in order to work ICS-SG SERIES Gas adjustment (or use slotted screwdriver). No matter battery assembly or maintenance for parts will be more convenient!

## Product Features 2.

### Accurate shoot particularly / Tactical upper Rail & Tactical Cheek rest

ICS develop new MI-46/MI-47 as tactical upper rail set (included one part of MRS), the height of rail is 9.6mm. It has to dismantle the mechanical rear sight while you assemble upper casing will be extendable completely! Collocate with MRS Tactical handguard will enhance the various of tactical facilities as most possibility. The visible on the appearance is more exquisite and sophisticated!

Combined with upgrade Tactical Cheek rest will make the consistency based on Rail's figure. Make high accuracy on shooting!

## Product Features 3.

### Advanced Ergonomics / Ergonomic Tactical Grip

ICS-SG MRS adopts ergonomic grip more fit in with hand shape and the best touch feeling on shooting. Combine with the Cheek rest will be perfect for the action as combat!

## Product Features 4.

Lead into low-visibility paint simulated in the environment of desert

In order to suitable the varieties combatant places, ICS develop the low-visibility painting with Dark earth version which have been adopted by the relative products of real gun. It's more various options for players in the Worldwide Airsoft game!

## Product Features 5.

Original Equipment – SG Low-Cap magazine and SG Hi-Cap magazine

To content the player with different necessary, ICS pack both of SG Low-Cap magazine and Hi-Cap magazine into the SG MRS equipment. The player can enjoy in both pleasure for realistic playing and power firing.
